2 600 EUR

Period : 19th century

Condition : Très bon état

Material : Walnut

Length : 310

Diameter : 125

Height : 80

### Description

Antique Louis Philippe extendable table, French-made, in walnut. The table was restored in our workshop. It extends considerably. When fully opened, it measures 3.10 meters. When opened, legs drop down to support the two half-moons of the table, as you can see in the photo. There are no extensions. The table is sold with two extensions made by us, each 60 cm and then 120 cm, in soft wood, stained to match the top color. We are available to create additional extensions up to the maximum length, but they are not included in the asking price.
