### Description

Royal Limoges - Orta - Escuela 21 Limoges porcelain plate published by Royal Limoges as part of the Arte Festival del Centro Histórico de la Ciudad de México, in collaboration with the AFAA and the French Embassy in Mexico. This limited edition, signed Orta, is part of the Escuela 21 artistic project, bringing together contemporary French and Mexican artists around the dialogue between art, language and science. Screen-printed decoration in gold, black and bright red: a central stylized heart surmounted by a set of symbols, mathematical formulas and spiral typographic characters, in the spirit of the conceptual research of the Orta collective. Piece with powerful and contemporary graphics, typical of the artistic porcelain produced by Royal Limoges for major cultural events.
