Diameter : 50 cm

Height : 61 cm ( hauteur totale pour les 2 vases)

### Description

Pair of large Medici Vases in Carrara marble.

Assembly in 3 parts: square base, sculpted base with double gadroon which fits into the basin.

The bases are glued to the base, and one of the 2 basins is sealed to its base. Very elegant shape of the basins with a wide, very flared rim, underlined on the flat with a bead sculpted in the mass. Internal dimensions of the vases: Depth 18 cm - Diameter of the opening 21 cm. Given their age, there are some slight differences between the 2 vases: the thickness of the square bases is 3 cm for one and 3.5 cm for the other. Slight losses to the base and tiny chips on the free edge of one of the basins should be noted (see photos) as well as a probable old repair on one of the angles of a base (?) but invisible to the naked eye. The set of these 2 Medici Vases is very harmonious and
