Description

Regency style with crosspieces forming stylized scrolls. It rests on four large console legs joined by a spacer with a stylized arch. Beautiful ornamentation of shells, leaves and quatrefoils covered with a "golden mixtion". Sarrancolin Ilhet marble top (repaired). Bordeaux or Réolais work (La Réole, in Gironde) from the 19th century. Height: 92.3 cm / width: 114 cm / depth: 40 cm (origin: Bordeaux family) Our console combines the art of wrought iron (structure) and the "repoussé" technique (ornamentation). Curved in elevation and plan, its powerful lines present a harmonious stylistic and decorative balance. The choice of marble is not random: it comes from the Ilhet quarry. Very close to Sarrancolin in the Hautes-Pyrénées, the site has been in operation since the Louis XIV era. Blocks are extracted
