Description

Two small Louis XV style marquetry commodes, curved on the front and sides, with colored marble tops. Each has two drawers on the front and is decorated with bronze mounts on the rails, uprights, and front feet. These very similar commodes have different bronze mounts, but the shape and marble tops are identical. Their dimensions make them suitable for use as bedside tables. The pieces have been cleaned and revarnished. Note: keys are missing.
