Description

Carved Ivory Needle Case - Beauvais work, circa 1850 - France. Elegant ivory needle case, of particularly refined workmanship, entirely openwork and finely hand-carved. Description: The body features two relief medallions: on one side, a young woman seated in a rural landscape, on the other, a pastoral scene with sheep and a shepherd. The openwork decoration, enhanced with garlands, drapery, and trelliswork, testifies to the great skill of the ivory carvers of Beauvais in the mid-19th century. Openwork screw-on stopper in the shape of a dome with floral decoration. With its CITES certificate no. FR2507508671-K issued in Paris on 03/07/2025. Dimensions: Height: 8 cm. Condition: Small chip visible on the top of the stopper, without major alteration to the overall aesthetic. Please do not
