Description

This late 18th-century oil on canvas still life painting showcases the artist's remarkable pictorial quality. As can be seen, the work depicts a magnificent bouquet of flowers in a vase on a table or window sill, with a glimpse of a countryside landscape visible in the background. The beautiful quality and harmonious chromatic composition of the bouquet, with its vibrant, vibrant colors, and the masterful depiction of the various botanical species are noteworthy. The painting is on its original canvas and is housed in its contemporary gilded frame, with embossed floral and fruit motifs in the corners. It should be noted that the painting's previous owner had a panel inserted on the back to protect the canvas, as it does not have a stretcher; see photo.PERIOD: Late 18th
