19th-century Portable Sundial In Its Wooden Case

400 EUR

Period : 19th century

Condition : Bon état

Material : Solid wood

Description

A charming 19th-century portable sundial, presented in its original wooden case. This compact instrument exemplifies the craftsmanship and functionality of 19th-century scientific inventions. Designed for precise measurement of solar time, it remains elegant and easy to carry. The piece displays meticulous craftsmanship, with engraved details and a warm, natural patina on the wood, enhancing its authenticity and decorative appeal. Dimensions (closed): 9 × 9 × 3 cm. A refined and collectible 19th-century scientific instrument, ideal for enthusiasts of antique horology, navigation, and unusual scientific objects.
