Wooden Bas-relief Panel Of St. John The Evangelist

580 EUR

Period : 19th century

Condition : Bon état

Material : Solid wood

Length : 61cm

Width : 38cm au plus large

Description

This sculpture is made with a heavy oak panel, a work that I would date to the beginning of the century (20th), no signature. St. John has a stern and meditative expression, some details are a little crude for this panel (eagle's beak, fingers...) nevertheless it is a striking object thanks to its large size.
