### Description

An elegant coffee table resting on four finely chiseled gilt-bronze legs in the form of stylized dolphins, a motif highly prized in furniture of the second half of the 20th century, inspired by neoclassical taste and marine themes. The upper surface is made of thick, veined white marble with softened edges. The lower shelf is mahogany, its shape carefully enhanced by a curved line. The feet are also crafted from worked bronze, with a highly decorative finish. In the center, a sculpted bronze element in the Rococo style completes the overall visual balance.
