

Curved Wrought Iron Console

1 350 EUR

Period : 19th century

Condition : Très bon état

Length : 92

Height : 73

Depth : 23

Description

A 19th-century hammered and patinated wrought iron console table. The structure is made of thick, high-quality wrought iron, entirely screwed together. The curved front features a triple-tiered design with scrolls, volutes, foliage, etc. It has a gray marble top. Note that the marble top is removable, allowing the console to form an elegant cane or umbrella stand. The lower section has hammered and patinated copper receptacles. Excellent condition.
