### Description

Large stoneware architectural element. Made in the Ivry workshops in the second half of the 19th century. Some small chips on the corners. Very heavy (approximately 20/25 kg). Height 63 cm. Depth 28 cm. Width 20.5 cm. (The Grande Tuilerie d'Ivry (Val-de-Marne), also known as Société Emile Muller et compagnie or Société nouvelle des établissements Emile Muller (between 1904 and 1907), was created by the French ceramist and sculptor Émile Muller in 1854. Company specializing in ceramic products for construction and industry, but also in art ceramics.)
