

Antique Clip-on Earrings With Coral Cameos

2 200 EUR

Period : 20th century

Condition : Très bon état

Material : Gold

Description

For unpierced ears. Elongated in shape, each antique clip is adorned in the center with a bezel-set coral cameo depicting the face and bust of a young woman. It is surrounded by an openwork design and embellished at the four cardinal points with a motif representing a chiseled leaf. The fastening is a rattle. Period: 20th century. Main material: 18k yellow gold (750/1000). Proportions: Height: approximately 2.5 cm, width: approximately 15 mm, thickness: approximately 8.5 mm. Net weight: approximately 8.6 g. Authentic antique jewelry - work from the early 20th century. Our opinion: These antique coral clip earrings can be adapted for pierced ears by adding a post. Pair them with a coral cameo ring or brooch with a similar design. To learn moreDiscover the product page
