Description

Long sleeper earrings in 18k yellow gold (750/°°, owl hallmark). Their only ornamentation consists of openwork floral motifs in a neo-Gothic style, arranged in the form of shuttles and round shapes. These beautifully sculpted floral motifs, with their pronounced relief, are enough to give these all-gold earrings a striking presence, making them easy to wear every day. The sleeper mechanisms feature more contemporary "swan neck" backs, which slip effortlessly through the front and are easy to use. A simple ring joint between the upper and lower parts of each earring allows for movement while wearing. Total gross weight: 7.10 g. Condition: micro-scratches imperceptible to the naked eye. Payment can be made entirely remotely via the website. We are available to answer any questions you may have regarding
