### Description

Beautiful and rare "Cinéraires" vase by Daum, with a flared cup shape on a pedestal base. An exceptional example of a rare and highly sought-after model. Multilayered glass, acid-etched then wheel-finished, with a delicately hammered surface. An earlier, more classical version of this design was produced without this final surface layer. It is precisely this envelope of dense, amber-toned glass that gives the piece its distinctive brilliance -- an expressionist touch that enhances the floral theme with remarkable depth. A final ruby layer, visible on the foot and the veins of the leaves, further enriches the contrast and color harmony. Signature: etched on the foot "Daum Nancy France" Condition: excellent, rim very slightly polished Height: 21.6 cm Period: circa 1905
