

Pair Of Mahogany Armchairs

2 000 EUR

Period : 17th century

Condition : Bon état

Material : Solid wood

Description

Elegant pair of mahogany armchairs, Carlo X, Livorno. The armchairs are characterized by sinuous lines and harmonious proportions. The armrests, wavy and enveloping, end with large carved scrolls that give movement and refinement to the structure. The upper band of the backrest has a light cymatium carved with stylized leaf motifs. The shapely front legs and saber-shaped rear legs complete the balanced and typically neoclassical silhouette of the model.
