

Two 19th-century Yellow Voltaire Armchairs In Walnut

500 EUR

Period : 19th century

Condition : Bon état

Material : Walnut

Description

Two very comfortable vintage Voltaire armchairs with excellent firm and supportive seating. There are just two tiny stains on the seat. The five reclining positions work perfectly. There are a few minor glass chips, one at the top and one at the bottom. You can simply change the fabric... or not. I can separate them if you only want one.
