Description

Superb pair of crystal flower vases attributed to the Baccarat crystal factory, finely cut with a decoration of flowers and butterflies. They rest on delicate silver-plated metal and gilt bronze mounts representing Bacchus. 19th century elegance and refinement. Elegant pair of wheel-cut crystal flower vases, richly decorated with butterflies and garlands of flowers. The crystal's extremely fine cut perfectly illustrates the expertise of the great French crystal factories of the 19th century, and can be attributed to Baccarat. Each vase rests on a silver-plated metal and gilt bronze mount depicting Bacchus, represented in the round supporting the upper part. This contrast between the transparency of the crystal and the warmth of the gilt bronze gives the whole a rare decorative charm. A collector's
