

Porcelain Hands "1950"

100 EUR

Period : 20th century

Condition : Très bon état

Material : Porcelain

Description

I'm selling this porcelain hand, which I believe comes from a glove maker's workshop, circa 1950. It would be perfect for jewelers to display their jewelry in their shop windows. It just needs a little dusting. The lot can be sold at your convenience; quotes available upon request. Shipping and signature upon delivery. Documentation will follow as usual.
