Length : 10 cm -- lame : 82 cm

Width : lame au talon : 4 cm

Description

A swordsman's rapier with a thick blade, Hispano-Portuguese, 17th century. The thick blade has a lenticular cross-section and a small faceted iron pommel with a rivet button, securing the guard branch to the crossguard with a screw. It features two straight quillons ending in nail heads. The full steel hilt has a blade-breaking rim and is 11.5 cm in diameter. The grip is made of turned wood, curved in the center and fluted. Length: 100 cm. Blade length: 82 cm. Blade width at the ricasso: 4 cm. In good condition, showing its age and patina; see photos for details. Free shipping within France. International shipping costs available upon request, depending on the destination country. Visit my other items in the gallery and on our website:
