Length : 224 cm

Height : 93cm/ assise 50 cm

Depth : 37cm

Description

This 17th-century walnut bench with arched backrests likely originates from northern Spain or the Basque Country. It rests on four legs joined in pairs by a crossbar cut in a bracket shape. The backrest is adorned with eight arches supported by double columns, with a single column in the center. The seat is made from a single plank. The dovetail joints of the seat and backrest ensure the bench's stability.
