540 EUR

Signature : la nature

Period : Before 16th century

Condition : Bon état

Material : Nacre

Length : 40 cm

Width : 29 cm

Height : 14 cm

Description

Rare, well-preserved fossil of a large, Quaternary-era holy water scallop shell, once used for holy water in a chapel. This natural wonder, a work of art in itself, is rich in symbolism, reflecting its origins and history, perhaps even finding its place in a sacred space during the Baroque era. A beautiful and intact piece, its density and the wear of thousands of years make it a decorative and original collector's item, perfect for those who appreciate unusual, well-preserved, and unique pieces.
