Description

Belgium / 17th century / Candlestick / bronze / Renaissance A finely cast 17th-century bronze candlestick from Belgium, this piece embodies the sculptural elegance and decorative vocabulary of the Renaissance period. Its turned and tiered silhouette, characterized by balanced proportions, subtle ornamentation, and a confidently shaped base, reflects the craftsmanship and aesthetic sensibilities of early European metalwork. The surface shows expected traces of use and age, adding depth, authenticity, and a warm, time-worn patina that only centuries of handling can create. Solid and weighty, the candlestick stands as both a practical lighting object and a collectible decorative accent. A distinguished addition to any curated interior, this antique bronze candlestick brings a sense of history,
