### Description

Pair of substantial oval frames in carved wood with original gesso preparation, produced in the 1980s as stock items. They feature rich rocaille-style scrollwork and ornamentation, with a gesso finish originally intended for gilding or decorative painting. The frames are structurally sound, with natural gesso losses due to age, and can either be restored or left in their appealing original patina. They measure approximately 110 cm in height and 70 cm in width. For further information, photos or technical details, please do not hesitate to contact us.
