Description

A set of three carved wooden panels, crafted from a single block of wood, depicting animal scenes. Each panel is carved from a single piece of wood and features deep relief, clean lines, and a beautiful array of hand-carved plant motifs, foliage, and borders. The scenes depict a mare and her foal, a grazing bovine, and a partridge in a rural setting, typical of the pastoral repertoire of the late 19th and early 20th centuries. The unfinished reverse side shows tool marks, confirming the traditional and authentic craftsmanship. A very fine antique patina.
