Genuine Breton Marine Compass

235 EUR

Period : 20th century

Condition : Très bon état

Material : Other

Diameter : 28 cm

Depth : 9 cm

Description

It took a lot of courage for those Breton sailors to abandon their fishing gear following European decisions... They dismantled all the tools and fittings from their vessels before handing them over to the wreckers. True story... In fact, it was my Breton brother-in-law who salvaged it... an old marine compass, in its original condition.
