Description

A music box presented in an elegant black lacquered case, adorned with pewter inlay. Made by Bremond, a renowned master of musical mechanics. Equipped with a clock, it plays a melody on demand, or a few moments before the hour, including the Brabançonne. The back of the case shows signs of age-related woodworm damage, typical of its age, without affecting its charm or functionality. An extremely rare piece in this exceptional configuration--a true treasure for collectors.https://youtu.be/W-g72idWcHE
