### Description

A superb pair of finely chased solid silver partridges, displaying exceptional modeling of the plumage and great naturalistic precision. Each bird has red glass eyes, giving the gaze a remarkably lifelike presence. The chasing work is particularly elaborate: detailed feathers all over the body, sculpted legs, tiered tails, and crisp reliefs. Both pieces bear Portuguese hallmarks, visible on the tail. The overall aesthetic, the density of the chasing, and the realism of the plumage are reminiscent of 20th-century Portuguese animal sculptures in the style of Luiz Ferreira, renowned for his richly crafted silver animal sculptures. Characteristics: Origin: Portugal Material: 916 sterling silver (Portuguese hallmarks visible) Subject: Pair of partridges Details: Red glass eyes, very pronounced chasing
