

Extendable Piedmontese Basket Table In Walnut, 19th Century

2 600 EUR

Period : 19th century

Condition : A restaurer

Material : Walnut

Description

Extendable Piedmontese basket table in walnut, 19th century
Restoration period
Dimensions: 80 × 160 × 130 cm
This is an elegant extendable basket table, typical of Piedmontese production in the first half of the 19th century, dating back to the Restoration period (circa 1815-1848). Made of solid walnut, it has an oval-shaped top with a wavy profile and warm, natural grain that highlights the quality of the wood. The edge of the top is slightly shaped, contributing to its sober yet refined appearance. To be restored. The structure is supported by four elegantly shaped legs, joined by a characteristic lower basket shelf, a distinctive feature of this type of table. The turned central support acts as a visual and structural fulcrum, giving the piece balance and solidity.
