

Barn Vault - Dated 1865 - Langres Limestone

2 600 EUR

Period : 19th century

Condition : Très bon état

Material : Stone

Width : 3,20 m

Height : 3,60 m

Depth : epaisseur : 70 cm

Description

Barn Vault Dated 1865 Beautiful ochre limestone from the quarries of Langres in Haute-Marne. Complete set of a low-arched vaulted passageway. Originating from a village near Langres, Haute-Marne. This easy-to-reassemble set is complete. It can serve as a garage entrance, a covered passage between two houses, a large bay window in a renovated room, etc. The stone blocks have been identified and noted. The base is wide and the blocks are substantial. The structure can easily ensure the stability of a heavy load above. Height at the highest point: 3.60 m. Passage width: 3.20 m. Block thickness: 70 cm - Can be resized. Our carrier can provide a delivery quote with your postal code. We are at your complete disposal for any further information.
