Description

Discover the perfect harmony of the Orient with this magnificent Serpentine Jade sculpture, a treasure of Chinese art. Its soft, almost translucent green color evokes the purity and serenity of imperial gardens. The work depicts a Celestial Lady dressed in flowing robes, delicately holding a musical instrument over her shoulder. The piece is distinguished by the exquisite craftsmanship of the stone: the peonies (a symbol of wealth and honor in China) are carved in high relief, creating an impression of lightness and airy movement--a true technical feat. Mounted on its carved wooden base, this statuette is not merely a decorative object; it is a poem in stone. It brings the tranquility and classical elegance of Asia.
