Description

Beautiful poster promoting the 29 lithographs of "Imaginary Portraits" created by Marcel Salinas with the active participation of Picasso in 1969. Note that this 74×52 cm poster was not reprinted for a gallery exhibition. It is therefore from the year of its first edition. The colors are very fresh. It is mounted at the four corners on lightweight cardboard, hence the slight creases. There is a slight trace of dampness in the lower right corner (see photo).
