Description

Magnificent Asian-made tray in exotic wood inlaid with brass, decorated with a rooster, bird, and foliage, including bamboo. The solid wood is carved with handles of branches and depictions of a mouse, spider, and frog. The wood is of very high quality! In good overall condition! Dimensions approximately 50 x 35 cm. Signed model or poem? To be determined. Quite heavy due to the quality and density of the exotic wood. A very attractive serving tray and highly decorative!
