Description

French school, late 18th century
Trompe l'oeil of a "drawing" on a wooden
background
Pencil, watercolour, 126 x 101 mm
Provenance: private collection, The Netherlands
*

An amusing trompe l'oeil "drawing" of a mother
and child
talking to a man in a landscape, illusionistically
"mounted" with red lacquer
on a background of wooden planks. The sheet
seems to date from around 1780-1800
and could have been made either in France,
Germany or Holland, presumably in
France. Very charming drawing in good
condition.
