Description

An elegant patinated bronze candlestick in the Neo-Gothic style, inspired by the historicist creations of Viollet-le-Duc and the High Renaissance aesthetic (15th century). The piece rests on three lions, each holding a small heraldic shield, symbolizing strength, protection, and sacredness. The turned shaft, punctuated by successive moldings, is topped with a crenellated crown pierced with decorative motifs, from which the candlestick rises. Beautiful quality of casting and chasing; heavy bronze with a nuanced brown patina.
