Description

A futuristic table lamp in the style of Goffredo Reggiani, an authentic expression of 1970s Space Age design.The sleek silhouette, mirrored chrome surface, and essential lines define an object with a bold and innovative character, typical of the aesthetic research of that decade.The frame is made of chromed and satin-finish metal, while the upper cap is made of opal glass, a material that diffuses light softly and uniformly. The neon lighting system fully enhances the transparency of the glass, creating a sophisticated and contemporary atmosphere.Equipped with a European plug, the lamp is ready for use.It is in excellent condition, with minor signs of age that do not compromise its aesthetics and testify to the authenticity of the original patina.
