

## Oil Lamps

240 EUR

Period : Before 16th century

Condition : Parfait état

Material : Terracotta

### Description

A small set of three oil lamps, typical of Carthaginian production from the late Roman period (4th century). The set comprises three small lamps, averaging 4 cm in height and 7.5 cm in diameter. The upper openings are 3 cm in diameter. One lamp is decorated with a bird motif, another has three wick holes, making it a rather unusual model, and the third is more conventional. All three are in very good condition.
