Description

Vintage Africanist Brass Sculpture, Signed Mukendi, c. 1970

Elegant vintage Africanist sculpture in solid brass, signed Mukendi. The composition depicts two highly stylised elongated human figures -- one standing, one seated -- rendered in flowing, open forms characteristic of Central African modernist sculpture from the post-colonial period.

The sculpture is mounted on its original wooden base and displays a warm natural patina. The refined abstraction, balanced proportions and sculptural voids give the piece a strong decorative and artistic presence.

Artist: Mukendi (signed)
