

## Bronze Perfume Burner

200 EUR

Period : 19th century

Condition : Très bon état

Material : Bronze

Height : 29 cm

### Description

I am offering this very pretty bronze incense burner, likely Japanese. It is particularly noteworthy for being complete, even including the small burner on the base, which is very rare. Most are missing this feature. It is decorated with mythological animals on the body and on the top of the stopper. It has a beautiful patina. No missing parts or damage.
