

## Pair Of Prototype Designer Armchairs, Unique Model

700 EUR

Period : 20th century

Condition : Bon état

Material : Wrought iron

### Description

Authentic pair of chairs/armchairs, an incredible wrought iron design by a self-taught architect who designed and built everything in his own home in Lyon. I'm selling them for EUR350 each; it's possible to separate the pair. The red armchair and the wider armchair are both available. The red one was designed in 1971, and the wider one in 1974, by this ingenious individual. Elegant, unique, and rare.
