Description

6 beautiful antique solid wood doors, suitable for communication or cupboards. The wood is larch (*), with a density close to oak, and is molded on both sides. These doors can be easily readjusted in height and width because the side stiles are very wide and the rails are very high, allowing for multiple uses (for example, a series of narrow cupboard doors). The natural wood color is beautifully restored after stripping. These doors are therefore also very suitable for a natural wood decor setting (e.g., chalet). Dimensions of pair 1: height 221 cm, width 119 cm, thickness 3 cm (see photos). Dimensions of pair 2: height 223 cm, width 121 cm, thickness 3 cm. Single door 3: height 223 cm, width 60 cm, thickness 3 cm. Single door 4: height 219.5 cm, width 60 cm, thickness 3 cm. Single door 3 matches pair 2 to
