Description

Hello, Pair of Art Nouveau silvered bronze candlesticks - 20th century. Each candlestick depicts a slender female figure, with a very fluid and elegant style. The curved lines, plant motifs (leaves, stems), and graceful posture are typical of Art Nouveau (late 19th - early 20th century). The raised arm supports the candle holder, integrated into a floral motif. The base is formed of stylized leaves, giving an impression of movement. The two pieces are symmetrical, designed as a matching pair, ideal for your Christmas table and/or for display on a console table. Available at Galerie Particulière Antiquités, Fresnay-sur-Sarthe.
