

## Pair Of Witch Stones

2 900 EUR

Period : 18th century

Condition : Très bon état

Material : Stone

Diameter : 29,5

### Description

A pair of geometrically shaped stones, likely the tops of pillars that kept evil spirits away from the property. They can be positioned with a flat face or a point, as one of each has a small flat surface for resting them. I took photos of the different possibilities.
