### Description

An elegant pair of bronze and cut crystal pendant lights, dating from the late 19th or early 20th century. Each light features a finely crafted bronze mount adorned with classically inspired decorative motifs. The cut crystal elements form elegant cascades, diffusing the light with brilliance and refinement. The lower section consists of a faceted crystal basket, framed by a bronze structure. A fine piece of work, typical of late 19th-century French production, in the style of Louis XVI/Napoleon III lighting. Ideal as a pair to frame an entryway, hallway, or bedroom. Good overall condition. Electrical wiring should be checked according to current standards.

Materials: bronze, crystal. Dimensions: Height: 62 cm Diameter: 27 cm
