Antique Workshop Chair With Screw Mechanism - Wood And Metal, Original Patina

220 EUR

Period : 20th century

Condition : Très bon état

Material : Metal

Diameter : 40

Height : 87

Description

Antique Adjustable Height Workshop Chair - Wood & Metal Description: This antique workshop chair, a silent witness to repeated gestures and the passage of time, embodies the raw elegance of early 20th-century industrial furniture. Its patinated metal base, marked by years of use, harmonizes beautifully with the warmth of the solid wood seat and backrest, with its visible grain and vibrant feel. The adjustable height, thanks to an ingenious central screw system, allows the chair to be adapted to various uses, from the office to the kitchen island, including a workshop or creative space. The slightly curved backrest offers discreet support, while the circular seat, hollowed by time, invites you to sit down, as you would in an old artisan's workshop. Every mark, every nuance of patina
