Description

Spectacular ovoid vase with a flattened body and shuttle-shaped neck on a triple-layered glass pedestal. Magnificent decoration, engraved in very fine reserves using acid and wheel engraving, of foliage and red ice plant flowers on a satin yellow background. The decoration is repeated in engraving from the inside of the vase to provide perfect luminosity to the floral motifs; we also have the model with blue flowers. Remarkable luminous effect and superb engraving quality! Gallé workshops in Nancy. Period: 1918-1931. We invite you to visit our website: antiquites-art-nouveau.fr
