### Description

A decanter for spirits: liqueurs or wines! A generous size and capacity... Larger than the classic models! Made of blown crystal... The upper part is cut in a melon rib shape... And the entire body is beautifully engraved... With further engravings... By the SAINT LOUIS glassworks - FRANCE... The mounts are solid silver... Certified to the French Minerva standard (1st standard)... 950/1000... By the silversmith FABRE - PARIS - FRANCE... Late 19th century... A few minor imperfections, including one on the base and one on the stopper (a small crack in the silver)... But nothing to worry about... If needed, I can have these flaws corrected... The stopper is original... Weight: 701 grams
