Description

Glass paste vase by Jean Claude Novaro, 20th century. A very pretty vase with metal and gold inclusions, typical of the work of this renowned glassmaker. Born in Antibes in 1943 and deceased in Monaco in 2014, he invented, after 20 years of research, the inclusion of gold, silver, and bronze in glass. Here, the inclusions of enamel in the glass are beautifully layered and enhanced by dark applications on the surface. A beautiful collector's piece by this great glassmaker, which will only increase in value over time. Shipping available in France and worldwide via secure, insured package with order tracking. Invoice and certificate provided. Collection is possible in person at Mas d'Avalrich, Montéscot 66200, or at my stand at the Montpellier Cipolat flea market every two
