

Antique Japanese Inro Decorated With Birds

250 EUR

Period : 19th century

Condition : Très bon état

Description

An elegant small antique Japanese inro, dating from the late 19th or early 20th century (Meiji/Taisho period). The cylindrical body is made of carved bone, finely decorated with an engraved and carved motif depicting birds among foliage, likely bamboo, a symbol of longevity and harmony in Japanese art. It is completed with its original cord and a small carved bird motif.

Dimensions: 5.5 x 5 x 2 cm
