

Pendulum Art Deco Venetian Murano Glass Mirror 1940 40's

1 200 EUR

Period : 20th century

Condition : Bel état

Description

Typical Work 1935 1940. In the taste of Jacques ADNET Serge ROCHE The clock represents a fabulous job of mirrors. The columns are pink glass, the base and the "roof" are mirror mount chromed brass and copper. The clock measures 24 cm wide by 30 cm high and 12 cm thick. The carillon is delayed, a small adjustment will not be expensive. It is observed that lack the door knob in front facade. This is not very serious because once the back door open, it remains only to push the front door from the inside so that it opens.
